HIPAA PRIVACY LAWS AND HEALTH CENTER PRIVACY POLICY/CONSENT | PAGE 1

The Health Insurance Portability and Accountability Act (HIPAA) provides safeguards to protect your privacy. Implementation of HIPAA requirement officially began on April 14, 2003. Many of the policies have been our practice for years. This is an abbreviated version, however the complete text is available in our offices or on the U.S. Department of Health and Human Services web site: www.hhs.gov.

HIPAA states that there are rules and restrictions on who may see or be notified of your Protected Health Information (PHI). These restrictions do not include the normal interchange of information necessary to provide you with office medical services.

Your information will be kept confidential except as is necessary to provide services or to ensure that all administrative matters related to your care are handled appropriately. This specifically includes the sharing of information with other healthcare providers if desired, laboratories and health insurance payers as is necessary and appropriate for your care.

Our Electronic Medical Record (EMR) is secure and personal information is encrypted to insure confidentiality. General information which does not include any client identifiers may be used in retrospective studies. However, studies requiring any personal identifiers will require your approval and consent.

It is the policy of this office to remind clients of their appointment. We may do this by telephone, text, e-mail, U.S. mail, or by any means convenient for the practice and/or as requested by you. We may send you other communications informing you of changes to office policy and new technology that you might find valuable or informative.

We agree to provide clients with access to their records in accordance with state and federal laws. You understand and agree to inspections of the office and review of documents which may include PHI by government agencies or insurance payers in normal performance of their duties.

We may change, add, delete or modify any of these provisions to better serve the needs of the practice and the client. You have the right to request restrictions in the use of your protected health information as the law permits. Your confidential information will not be sold for any reason.

Your signature will indicate that you have read the HIPAA information and the information herein this document and consent to the guidelines set forth in the Act as well as policies and procedures established at HOPE Family Health regarding your privacy and health information.

You may not limit the uses and disclosures that we are legally required or allowed to make.

The list will include the date of the disclosure, to whom PHI was disclosed (including their address, if known), a description of the information disclosed and the reason for the disclosure. We will provide the list to you at no charge, but if you make more than one request in the same calendar year, we will charge you for each additional request.

If we approve your request, we will make the change to your PHI, tell you that we have done it and tell others that need to know about the change to your PHI.
